

200 Milford Point Dr Septic System

According to Brevard County Department of Natural Resources, there is a partial moratorium on new septic systems in the county but the area where Milford Point Drive is located is not in the moratorium area.

There is a septic-to-sewer project just beginning in that area and within approximately 1-2 years there will be a mandatory sewer hookup required. Any septic in place will need to be demolished and a lateral connection to the new sewer system will be mandatory at that time.

Be sure to confirm all information with the Brevard County Natural Resources Department
