BUSINESS DEVELOPMENTS AFFECTING BREVARD COUNTY AND FLORIDA'S SPACE COAST

Here are some of the most significant business developments affecting Brevard County and Florida's Space Coast over the past 30 days:

Top Business News (Last 30 Days)

1. Blue Origin Expands Manufacturing Presence

Blue Origin is moving forward with its "Project Horizon" expansion at Cape Canaveral Spaceport. The project includes an 830,000-square-foot manufacturing facility and a reported \$600 million investment that is expected to create roughly 500 high-wage aerospace jobs, reinforcing Brevard's role as a major aerospace manufacturing hub.

2. Major Retail and Mixed-Use Development in West Melbourne

A new project called Landing at Space Coast was announced in West Melbourne. The 225-acre development is planned to include more than 77,000 square feet of retail space, restaurants, shops, and a grocery anchor. Developers expect it to attract workers from the aerospace, defense, and technology sectors while generating hundreds of jobs.

3. \$15 Million Airport Infrastructure Grant

The Space Coast Regional Airport received a \$15 million infrastructure grant aimed at attracting additional aerospace companies and supporting future economic growth in North Brevard.

4. Artemis II Launch Delivers Tourism Windfall

The Artemis II launch generated a major economic boost for the Space Coast. Approximately 346,000 visitors came to northern Brevard County during launch week, producing an estimated \$41 million in visitor spending. This represents one of the largest tourism impacts in recent Space Coast history.

5. Continued Growth of International Space Companies

The Economic Development Commission of Florida's Space Coast reports ongoing expansion and recruitment of aerospace manufacturers, including Italian satellite company Argotec and other aerospace suppliers establishing or expanding operations on the Space Coast.

Key Trends to Watch

Aerospace remains the dominant growth engine in Brevard County.

Commercial space activity continues attracting manufacturing and supply-chain investments.

Retail and housing development are accelerating in response to population growth.

Artemis-related tourism and future launches are creating substantial economic impacts.

Workforce development initiatives are expanding to support aerospace and advanced manufacturing hiring needs.

For investors and local business owners, the strongest sectors right now appear to be aerospace manufacturing, industrial real estate, retail development around growth corridors, and tourism tied to major launches.
